2 EQUIPMENT

2.1 HARDWARE UPGRADES

Router upgrade options are for Broadband and Superfast packages only and are not available on Ultrafast services.

Wi-Fi mesh is a simple plug and play solution to boost your signal and eliminate internet dead spots in your premise. Ideal for Home workers or small offices our total Wi-Fi package can be taken with any of our standard Broadband, Superfast or Ultrafast services either as part of a 24-month contract or as a one-off purchase.

Feature	Description	Cost
Upgrade to Draytek 2760n	Upgrade the standard inclusive router for an enhanced model. (see Draytek website for full model details).	£70.00 one off
Upgrade to Draytek 2862ac	Upgrade the standard inclusive router for an enhanced larger office model with increased firewall controls, multiple VLAN configurations and increased VPN capacity (see Draytek website for full model details).	Essential services £155.00 one off Enhanced services £100.00 one off
No router required (Essential Broadband & Superfast only)	Use your own equipment or purchase from a third party	-(minus) £1.50 per month
No router required (Enhanced Broadband & Superfast only)	Use your own equipment or purchase from a third party	-(minus) £4.00 per month

All prices are applicable if taken at the start of your contract or if you are resigning for a new contract period. Any mid contract upgrades may be subject to additional charges, contact us for further details.

2.2 UPFRONT PURCHASES

There is also an option to purchase a router mid contract for a single one-off cost

Item	Cost
Technicolor DGA0122	£50.00
Draytek 2762n	Enquire for cost
Draytek 2862ac	Enquire for cost

All items also have a £5.00 one off delivery cost

Business services

Pricing: *Business Broadband & Fibre*

3 **OTHER SERVICE CHARGES – BROADBAND/SUPERFAST/ULTRAFAST**

All costs below are one off charges unless otherwise specifically stated

Item	Cost
Set up fee for Broadband (ADSL) and Superfast (FTTC) – Minimum 24-month contract (<i>excludes any line requirements</i>)	Free
Set up fee for Ultrafast (FTTP) – Minimum 12 month contract	£50.00
Migration fee if moving from another provider	Free
Broadband early termination fee ⁸	£70.91
Superfast early termination fee ⁸	£85.12
Ultrafast early termination fee ⁸	£74.12 + Remaining contract cost*
Broadband cancellation fee – less than 2 days prior to activation	Total contract cost**
Broadband cancellation fee – 3-5 days prior to activation	£18.09
Superfast & Ultrafast cancellation fee – less than 2 days prior to activation	Total contract cost**
Superfast & Ultrafast cancellation fee – 3-5 days prior to activation	£11.25
Broadband connection expedite	£106.29
Superfast connection expedite	£196.00

*This is the total monthly fees of your chosen service for the remaining length of your agreed contract; for example Essential Ultrafast on a 12 month contract terminated at month 6 would be £74.12 + (£38.00 x 6) = £302.12

**This is the total monthly fees of your chosen service for the length of your agreed contract; for example Essential Broadband on a 12 month contract would be £25.00 x 24 = £300.00

3.1 **ENGINEER VISITS AND CHARGES – BROADBAND/SUPERFAST/ULTRAFAST**

Item	Cost
Engineer – Broadband Special Faults Investigation base charge (a)	£154.00
Special Fault Investigation equipment charge (b)	£22.00
Special Fault Investigation wiring charge (b)	£44.00
Special Fault Investigation collaborative visit	£15.00
Special Fault Investigation Line Investigation Charge – Network Module (b)	£60.00
Special Fault Investigation Line Investigation Charge – Frames Module (b)	£120.00
Special Fault Investigation abortive visit (c)	£99.00
Time related charge	£55.00 per hour

- a) Broadband Special Faults Investigation is a service which permits The Phone Co-op to request a visit by an engineer to End User premises for the purpose of resolving certain Broadband faults. Where Openreach provides maintenance of any non-Openreach network equipment (including wiring) beyond the NTE a charge will apply. Additional charges may be incurred depending on the location of the fault
- b) Charge applies in addition to the Broadband Special Faults Investigation base charge where Openreach provides maintenance of any non-Openreach equipment (including wiring) beyond the End User NTE
- c) Applies where an Openreach engineer is unable to access the customer's site when scheduled to visit them to investigate a fault.

For all line rental related charges please refer to the Business line rental price list as per the related documents section

4 **SERVICE NOTES:**

1. Usage is unlimited, subject to a fair use policy as published on our website (see Related Documents)
2. Broadband speed is subject to a line test and factors including, but not limited to, local availability, distance from the exchange, internal and external cable quality and local equipment. We can confirm your expected line speed before activation. Please be aware that using any service on a Wi-Fi connection may significantly decrease speeds. We strongly recommend that all Wi-Fi enabled devices support IEEE 802.11n wireless standard; earlier versions will not support the speeds associated with fibre broadband

3. Standard Care is the default Service Maintenance Level for Copper (ADSL) and Fibre (FTTC / FTTP) end user Broadband Access Services.
Faults can be reported to The Phone Co-op Technical Support team and will be assigned and responded to within Business Working Hours; the Initial Response Target to discuss the reported Fault is 4 working hours.

If an Engineer Visit is deemed to be required, then The Phone Co-op will arrange the first available Engineer Visit appointment during Business Working Hours (except Saturdays).

The Fault Restoration Target to resolve the reported Fault or provide an appropriate workaround is 40 Clock Hours from the Fault being confirmed as received by the Internet Technical Support team, covering Monday to Friday (excluding Public & Bank Holidays), and excluding any allowable Parked Time.

4. Enhanced Care is an uplifted Service Maintenance Level for Copper (ADSL) and Fibre (FTTC / FTTP) Broadband Access Services.

Faults should be reported to The Phone Co-op Technical Support team and will be assigned and responded to within Business Working Hours; the Initial Response Target to discuss the reported Fault is 3 working hours.

If an Engineer Visit is deemed to be required, then The Phone Co-op will arrange the first available Engineer Visit appointment, covering Monday to Sunday including Public & Bank Holidays. Saturday and Sunday visits are subject to availability and not guaranteed.

The Fault Restoration Target to resolve the reported Fault or provide an appropriate workaround is 20 Clock Hours from the Fault being confirmed as received by the Technical Support team, covering Monday to Friday (excluding Public & Bank Holidays), and excluding any allowable Parked Time.

Enhanced Care SLAs will not be applicable in the Highlands and Islands of Scotland.

5. Clear by end of next working day, Monday to Saturday, excluding Public Holidays and Bank Holidays.

Example: Fault reported at any time between 00.01 – 23.59.59 on Tuesday would have a commitment time of 23.59.59 on Wednesday.

Business level 2+ has prioritised repair with a higher percentage of targets met. Also includes Smart divert feature as standard as well as reduced costs on focused appointments and named engineers

6. Reported by 12.59 – clear by 23.59.59 same day. Reported after 13.00 – clear by 12.59.59 next day (Monday – Sunday including Public and Bank Holidays)
7. For calls up to one hour in duration
8. Applies if you terminate your service within the agreed contract period; does not apply to existing customers moving premises, changing phone lines or billing details
9. Contention ratios dictate the number of other user connections that are sharing the fibre backhaul. For an 8:1 ration there will be up to 8 other connections sharing the fibre back to the supplier network while a 1;1 contention is dedicated purely for your traffic. All contended traffic is securely segregated but high contention may mean higher latency or periods of slower speeds if there is large amounts of data being transmitted.

5 **FAULT REPAIR**

The Phone Co-op will provide a fault repair service. Fault repair for lines is described in the Business Line Rental price list. We will provide advice by telephone including, where appropriate, tests and checks to be carried out and, where possible, carry out diagnostic checks from our premises. If this does not diagnose or clear the fault we will arrange for an engineer to visit the customer premises.

Where the customer requests a visit by an engineer to the customer's premises to investigate a broadband fault then if the engineer provides maintenance of any customer equipment (including wiring) then a charge may apply. If the visit is aborted e.g. the engineer does not gain access then the abortive visit charge will become payable.

6 **CANCELLATIONS**

You may cancel the Service at any time up to the Commencement Date (charges may apply, see section 1.8). For organisations and businesses with fewer than 10 registered employees you have the right to cancel within 10 working days of this date. We will accept your application under the Consumer Protection (Distance Selling) Regulations with no penalties.

If you terminate the Service within the Minimum Period then you must immediately pay for the rest of the charges due in the Minimum Period.

After the Minimum Period, you may end this Agreement by giving thirty days' notice by providing written confirmation of your request to our business services department. You acknowledge that termination of your account will only be valid if you notify us in this manner. The end date of all services will be thirty days after we receive notification, although any active services can be

terminated with immediate effect you will be charged for this service for the remainder of this period.

Where any service is terminated (however that may happen) you agree to pay to Us any applicable cease charges where our Third-Party Operators levies such a fee against us.

If you are changing your service such as re-grading your broadband, ending a calling feature or changing tariff, and are not part of a termination of the account, then termination terms do not apply and the current minimum period continues unless specifically agreed by both parties.

If you are upgrading from an ADSL Broadband product to a Fibre product you will be entered into a new contract and minimum period.

All prices exclude VAT unless specifically stated.

7 **DEFINITIONS**

ADSL

ADSL (Asymmetric Digital Subscriber Line) – See Broadband

BROADBAND

Our Internet Service whereby you may gain direct access to the Internet via your copper phone line using ADSL (Asymmetric Digital Subscriber Line) technology according to the package you have selected

CHARGES

The charges for services payable to The Phone Co-op

CLOCK HOURS

The period of time elapsed following confirmation of a Fault being logged with the Internet Technical Support team, where a unique Fault reference has been provided

COMMENCEMENT DATE

The date upon which services are first provided the customer end user

SET UP FEE

A one off payment required for any equipment or service activations related to your chosen package

END USER

Refers to the customer who receiving the Service

EQUIPMENT

The hardware which is required to access any of the Services we supply. Your equipment may be recommended or supplied by The Phone Co-op or you may purchase the equipment from an alternative supplier

FTTC/ FIBRE TO THE CABINET

See Superfast

FTTC/ FIBRE TO THE PREMISE

See Ultrafast

GIGABYTE (GB)

Expression used to describe storage capacity or amount of data. One gigabyte is about 1024 Megabytes

MEGABYTE (MB)

Expression used to describe storage capacity or amount of data. One megabyte is about one million bytes/characters

MIGRATION

The process by which a customer is to move from one internet service provider to another with a minimal interruption in service.

MINIMUM PERIOD

The period of service from commencement date to contractual end date as specified by each service/package

MONTHLY DATA ALLOWANCE

The amount of data transfer usage available on your internet service without extra charge. We measure the total data transferred over your connection, both download (Receiving email, Web browsing, downloading files) and upload (sending email, file sharing).

NTE

Network Terminating Equipment. The physical point in a premise that provides access to the public telephone network, also referred to as the Master Socket.

PARKED TIME

The period of time whereby the reported Fault is outside of the control of the Internet Technical Support team, for example waiting for the End user/Customer to complete diagnostics, on-site investigations, or when dealing with any non-Phone Co-op provided equipment or service related issues, or awaiting site visit access to be arranged.

PSTN

Public Switched Telephone Network is the international term for a public telephone service, which carries analogue voice signals between connections.

SERVICE

Includes but not limited to; calls, call packages, Internet Services, line rental or mobile services provided by The Phone Co-op in accordance with the Terms and Conditions.

SUPERFAST

Our Internet Service whereby you may gain direct access to the Internet via your phone line by using Fibre optic cables to exchange data from the nearest enabled street cabinet to your local telephone exchange. It is typically faster than a standard Broadband service that transmits exclusively down copper wires.

ULTRAFAST

Our Internet Service whereby you may gain direct access to the Internet using Fibre optic cables to exchange data from a terminated socket in your premise to your local telephone exchange. It is typically faster than a standard Broadband and Superfast services that transmit either partially or exclusively down copper wires.

US

Refers to The Phone Co-op

Business services
