

Call Minder Premier

Call Minder Premier extends the features of Call Minder and Call Minder Extra to include separate greetings making it clear you are on another call, away for sometime or just unable to answer at that time.

This service will also store fax messages and allow you to call in from a fax enabled line and remotely download fax messages.

It also comes with a total of 5 mailboxes associated with the fixed line and this can be expanded to 9 mailboxes. You can also configure the Call Minder message waiting option to send a message-waiting alert to another line upon message deposit.

Linking Call Minder standard service to a mobile, with the Text Alert feature - this service allows you to link your mobile phone to the call minder service. You will get a text message sent to your mobile whenever a new message is left on your land line. You can then call in to your land line number to listen to the message using the linked mobile.

The default PIN is 2255.
