

Caller Display

Instructions for Use

A Caller Display phone or other suitable Caller Display equipment is required for customers to benefit from this service. Instructions are specific to the appropriate apparatus.

To suppress outgoing telephone number identity: key 141 before dialling out.

To release an outgoing telephone number when permanent withholding exists, key 1470 before dialling out (digital exchanges only).

Notes

The telephone number of the following types of calls cannot be received:

- Charge card Calls.
- Most calls from outside the UK.
- Calls withheld by 141 or permanent number withholding.
- Calls originating from some non BT networks.
- Calls from some Payphones.
- Calls from rural exchanges. An upgrade programme is currently running and this means that Caller Display will be possible on some rural exchanges.

This service is available as standard for all PSTN lines connected to the digital network on a pay per use basis.

Cost

£0.60 per month (including VAT).
