

Call Barring

Outgoing Call Barring

This feature allows you to choose to stop certain types of calls, for example, all, international or Premium Rate Information calls (but not 999/112 or 151) and there is no charge.

The following types of call can be barred:

- UK National
- International
- Mobile
- Premium
- Directory Enquiry services

Instructions for Outgoing Call Barring

Once this feature has been enabled on the line, it is possible to bar access using the following codes on your telephone key pad.

To set up outgoing call barring

1. Dial *34 code #

To cancel outgoing call barring

1. Dial #34 code *PIN#

To see if out going call barring is on your line

1. Dial *#34#

Codes for Outgoing Call Barring

1. Bar almost all calls, cancelling this option also cancels any other Outgoing Call Bars in place
2. Bar national and international calls, and calls to mobiles
3. Bar international calls
4. Bar all operator calls, SMS messages, and text direct 18001 & 18002
5. Bar calls to numbers with a * or # in them (includes some calling features)
6. Bar calls to premium rate number

Notes

The service will be set up permanently on your line (unless you ask us to remove it) for whichever category of call you wish to bar - barring can't be turned on and off in the same way as it can with incoming calls.

Cost

£1.79 per month including VAT
