### OTHER CHARGES

Item	One-off charge
Replacement SIM card	£5
Postage for handsets	£6

### Mobile bill limits

From October 1st 2018, all new customers have the opportunity to set a bill limit when signing up to a new contract. Existing customers can add a limit if they switch to one of our new bundles. Customers can set a spending limit for calls that are not included in their bundle (such as international calls), and they won't be charged more than that. Other bill charges still apply (if you have broadband and line rental, or a paper bill charge, for example) and not all mobile calls will be included in the limit. For instance, the "service charge" of calls to 084, 087, 09 and 118 calls is outside the limit, and you will always be charged for this. If you use your mobile to pay for services (eg MPAY) or make donations, these will also be outside of your limit.

## **Fair Usage Policy**

Our mobile services are designed for your personal, non-commercial use. We monitor the traffic on our network and will take steps to suspend any numbers that we reasonably suspect do not conform to personal use.

Indications of non-personal use may include, but are not limited to:

- Dialling more than 99 unique numbers within a 30 day period
- Texting more than 99 unique numbers within a 30 day period
- Sending more than 3000 texts within a 30 day period
- Making calls predominantly to 087 or 084 numbers, international calling cards, or call cashback services
- Making multiple calls or sending multiple SMS at once or within very short intervals of each other

You are responsible for monitoring your usage and will be charged for any use above your monthly bundle allowance. We reserve the right to block your access to services if we believe your usage to be excessive. Your inclusive allowance will be reset on the first working day of the following month.

Calls, texts and data used while roaming in the EU (and selected other countries) are included in your bundle, or charged as per UK use where bundles have not been applied or have been exhausted. Our service is intended for use mostly within the UK, so if we see that you spend more time abroad than in the UK and use more services abroad than in the UK in any four month period, we may contact you to clarify your residential status.

You will have 14 days to respond, after which we may apply a small surcharge to your published roaming rates. This surcharge is currently capped (inc VAT) at:

- 3.2p per minute of voice calls
- 1p per SMS
- 0.62p per MB of data

You currently have full access to your data bundle while roaming. We reserve the right to apply a cap to data roaming, based on EU regulations, of twice the volume of data that can be bought by the value of your monthly contract at the wholesale roaming data price cap.

In order to prevent fraud and to protect customers against instances of "bill shock," we will take action to restrict your services if we believe your use of the service in any calendar month to be excessive.

## **Ending your contract**

You may end this agreement by giving us 30 days' notice in writing. You must pay the charges during the notice period. If you close your account or terminate your contract within the Minimum Period then you must pay the rest of the charges due in the Minimum Period or the termination fee, whichever is less. If your contract includes a smartphone then the termination fee due will be £73, plus the value of your remaining handset charges until the end of your minimum period (to cover your mobile equipment).

If you have ended this agreement because we don't do something fundamental that we should have done under this agreement (for example, if there is a complete failure of the network) then in these situations you do not have to pay all charges due until the end of the minimum period but you may have to make a payment in respect of your mobile equipment. In this case the payment would be the value of your remaining handset charges. You will make this payment to us immediately on request following the agreement coming to an end.
