

Thunderbird (Mac OSX) – Email setup guide

If any of any of the following is unclear or does not work, please call our technical support team on 01608 434 000.

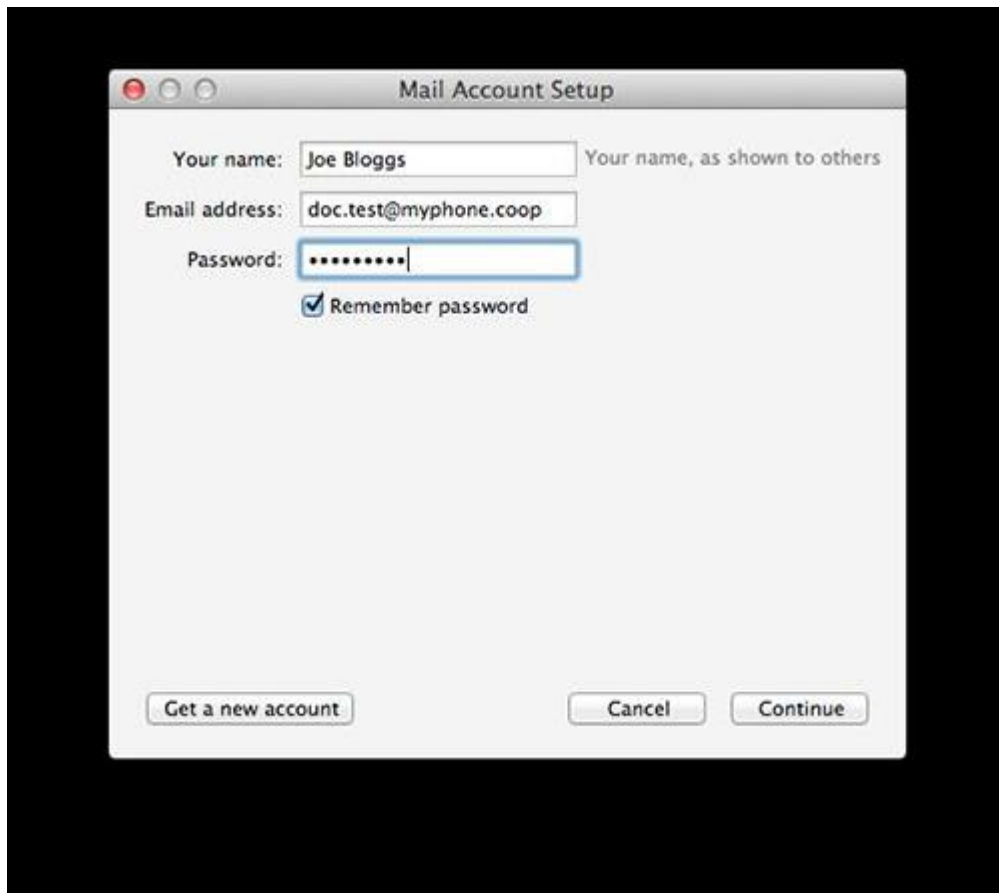

1. Open Thunderbird and choose "Email" in the create new account section.

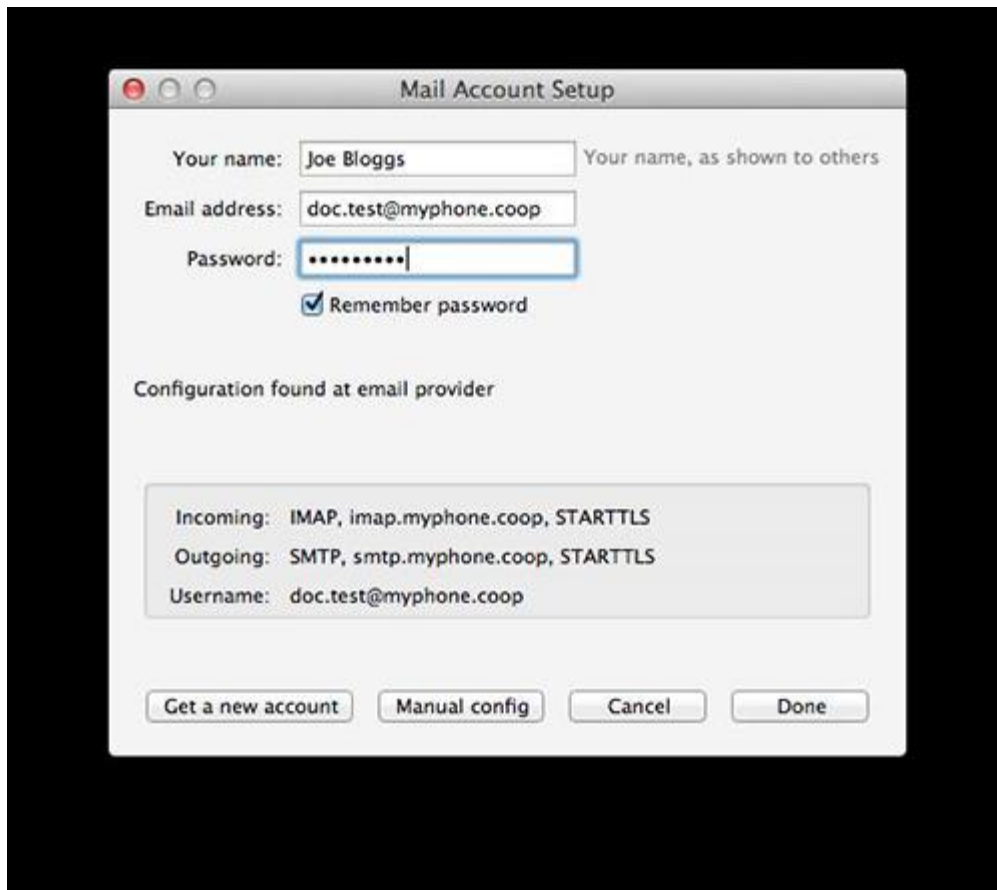

2. Thunderbird will offer to set you up a new email address, press the "Skip this and use my existing email" button.

3. Enter your full name, email address and password then press continue.

4. Thunderbird will automatically retrieve the settings for our mail servers, all you need to do is press done.

5. Click the "Get mail" button to complete set up.
